City Council Meeting Report

Trudi Ryan, Planning Officer, reported that on August 22, 2006 the City Council met and considered three planning related items. The first was a request for a continuance, which was granted, for an appeal on Ashbourne Drive for a variance on a setback, which was continued, to September 26, 2006, as requested by the applicant. The second was an appeal on Lewiston Drive for a variance for a new fence in the corner vision triangle. The appeal was not granted as the vote was split 3-3 resulting in the Council taking no action, therefore, the decision of the Planning Commission stands. The Council also considered a request to initiate a General Plan Amendment for property on North Sunnyvale Avenue. The Council initiated the request and directed that other property owners on the east side of North Sunnyvale Avenue be invited to participate in the General Plan Amendment study considering a larger area than initially proposed.

Vice Chair Sulser confirmed with staff that a Councilmember was the appellant on the Lewiston Drive variance. Ms. Ryan clarified that at the Planning Commission meeting when this item was considered that questions were asked about previous variance applications considered that dealt with vision triangle issues. The Planning staff provided general information about the previous applications however the Councilmember felt it would be appropriate, for the applicant's sake, for staff to research the previous applications and provide more detailed information. Vice Chair Sulser said he thought the Councilmember had further appealed the Council 3-3 split vote decision. Ms. Ryan said she did not think this could be appealed. Ms. Ryan said there was a study issue suggested as a result of discussion to examine the possibility of allowing open fences in vision triangle areas so that variances would not be a requirement.

Ms. Ryan commented that the next Council meeting that has Planning related issues scheduled is on September 26, 2006 when the Ashbourne Drive appeal is to be considered, and the application on Bobolink Circle where a single home is being proposed for subdivision into four lots.
